

## Slaton Comes Here Saturday Night

"Tuffy" McCoy, with his crying towel in hand, will descend on Hamlin Saturday night leading a band of Slaton athletes to cross bats with the Hamlin Cardinals.

McCoy is always the target of Hamlin fans when he makes his infrequent appearances here and the wolves will have their night Saturday.

Adding fuel to the fire is the fact that Tuffy's little brother, "Runt" will be performing for the Hamlin club, and there is a possibility that Runt will pitch against his brother.

Manager Duck Weaver of the Cardinals has indicated that he will start Benny Ford on the mound for Hamlin and if Ford is in the form he displayed against the Merkel-Trent combination in their 11-3 loss to Hamlin, he will be rugged competition.

Ford faced fourteen men in his four inning stint on the mound against the Merkel-Trent combination team and retired nine men through strikeouts, shutting them out.

McCoy finished the game for Hamlin and yielded three runs after he had been assured a substantial lead.

In the return game with Merkel-Trent, played at Merkel Sunday, the tables were reversed. Lefty Jones brought all of his stuff to the ball park for Merkel and let the locals down with their first defeat of the season, 11-2.

Adair and Ervin were the Cardinal pitchers who were exposed to the riling.

Attendance at the Hamlin games been very disappointing considering the type of play offered by the local club.

## Martin Ranch Gets Another Location

G. H. Brodie and Drilling & Exploration Company have completed negotiations wherein they will drill their W. F. Martin Number 1.

Location for the well is in the southeast corner of the northwest quarter of Section 112, H. & T. C. Railroad Block 1.

This well will probably be an Ellenburger test.

Another activity on the Martin Ranch is the W. F. Martin Number 1 which is being drilled by Seaboard Oil Company. This well was reported to be coring the Strawn at approximately 5500 feet.

## Child Lost Sunday From Abilene Home

Efforts are being made in Hamlin and throughout the entire West Texas region to find Charles "Corky" Royall, 12, who has been missing from his home in Abilene since Sunday night.

The lad was last seen at about 6:00 p. m. Sunday when he went to a neighboring house.

At the time he was last seen, the boy was wearing a blue Cub Scout shirt, blue jeans, black tennis shoes and was without a hat.

The child is 4 feet 9 inches tall and weight about 100 pounds. He has black hair and is dark complexioned. He had no money.

## Bingham Well Capped As Salt Water Flows

Efforts to correct deficiencies in the Bingham well, 8 miles south of Hamlin, have proved fruitless and the well has been capped pending further developments in that region.

The well originally produced from the Swastika pay and flowed for a short period before the encroachment of water. After water developed an effort was made to squeeze off the Swastika and produce from the Gunsight.

Production was principally sulphur water from this structure.

## Pied Pipers Ready For Confalon Fight

The crucial sudden-death playoff scheduled for District 6-A in baseball to decide the championship has been postponed because of Wednesday night rains.

Rotan, by winning over Snyder 5-3, late last week, established themselves as winners of the western zone in district 6-A and gained the right to contest Hamlin, winners in the eastern half.

The playoff was originally to be played Thursday night at 8:00 p. m. in the Hamlin city park.

League rules dictate that a champion be established in the district by May 15 and this will force playing of the game by Monday night.

After the Wednesday night rain Superintendent I. R. Hutchinson was in communication with the Rotan authorities and a date was set for the game to be played Saturday afternoon at 2:30 at the Hamlin park. Should further rain interfere with playing on this date the game will be played Monday night at 8:00.

Joe Allen Dean is rounding into shape after spraining his ankle in practice and will be on the mound for the Pied Pipers in the game with Rotan. Asa Goodgame will be held in reserve for the pitching assignment should Dean fail to reach his usual form for the contest.

The remainder of the Pied Piper squad is in excellent shape for the engagement.

If Hamlin is the victor over Rotan, they will meet Dublin or Comanche in bi-district play for a place in regional play in the Ballinger area.

Regional play is as far as baseball championships are determined in Class A competition.

Carl Murrell had the program and dedicated his thoughts to the youth of today in discussing this "Land of Opportunity".

He said the greatest opportunity lies in politics. Subsidies, social security and the like should be done away with to see if we can stand alone in this country. He said this would tend to cure the "ills of poor politics".

Program followed the "out of this world" theme. It opened with "Wishing Stars", a speech of welcome by the "Little Dipper", Don Johnson, president of the Junior Class. After which he presented gifts to the class sponsors.

The "Big Dipper", John Holland, president of the Senior Class gave the response, "Holiday in Stardom". ## Forecast More Rains To Come

Fearsome clouds that began to roll over Hamlin Wednesday afternoon at 3:15 p. m. ended in a rainfall that was gauged at 2.1 inches for the afternoon and night.

Clouds were unusually low and the manner in which they drifted about and assumed different formations before releasing their moisture caused apprehension on the part of natives of the area.

Rain started at about 4:00 p. m. and fell intermittently throughout the night. Official gauge at the city water station at the South Lake early Thursday morning revealed 2.1 inches recorded.

Mid-morning reports were that a heavy afternoon and night rainfall was recorded at Sylvester and water officials stated that a substantial flow from the creek from Sylvester is emptying into the lake reservoir.

Some estimates are that the present flow will permit a four-inch rise in the lake reservoir without additional rain in the vicinity of the lake watershed.

All sections surrounding Hamlin have apparently benefitted and the land northwest of the city was well soaked according to early reports.

The rains were scattered over all of West Texas and had their start in Oklahoma.

## Texas Highway Department Spends \$500,000 for Betterment of Roads

Texas Highway Department is pulling no punches in an all out war on rural traffic accidents that exacted a toll of 1,395 lives, left an estimated 24,926 injured and maimed, and resulted in an estimated economic loss of \$43,710,660 during the year 1949.

Taking note of this tremendous toll of human lives and property a safety-conscious Highway Commission has decreed that every possible measure within the power applied to make Texas highways use them. The decree of the of the Highway Department be as safe as possible for all who Highway Commission was not an appropriation of \$500,000 for center line one; it was backed by an ap- lines, lane lines and barrier lines

for no-passing zones during the year 1950 alone. This sum will be applied on some 25,000 miles on the State Highway System on which the center lane lines are marked and about 23,000 miles on which the barrier stripes for no-passing zones are marked. These lines are just one of many weapons the Highway Department is employing in the battle for traffic safety.

Have you as a motorist ever thought of the meaning a center line on a pavement should convey to you? It should tell you that the right-hand half of the road is yours; it should tell you that it was not put there as a challenge to your driving skill to keep one wheel on it; and it

should tell you that when you cross it to overtake and pass another car that you should be sure the other half of the road ahead of you is clear.

Failure to observe the simple but important meaning of the center line can result in a tragic end for you. Last year (1949) on rural highways there were 3,625 accidents caused by thoughtless drivers who were on the wrong side of the road, and they were not even in the act of passing another car—just driving on the wrong side of the road for no good reason whatever. These needless "on-the-wrong-side-of-the-road" accidents cost the lives of 253 people; maimed and injured 2,316 others; and caused property damage of \$7,927,400. Take a good look at that center line when you drive and think what it can mean to you.

And what happened to those who made a mistake in passing another car when the road way ahead was not clear? These mistakes cost the lives of 46 people; maimed and injured 462 others and added more thousands of dollars to the toll of property damage. It is not too hard for the average motorist to make a mistake in judgment on the distance ahead a roadway must be clear for him to overtake and pass the car ahead of him.

Take a look at the sketch showing the distance required for a car traveling 60 miles per hour to overtake and pass a car traveling 50 miles per hour then there is a car traveling toward him at 60 miles per hour in the opposite lane—2,360 feet or 6 1/2 city blocks! If the car in the sketch

had failed to complete his overtaking and passing maneuver safely and had met the opposing car head-on at 60 miles per hour, the energy developed by the collision would be as great as though one car had been driven off the top of a 21 story building. Head-on collisions are deadly!

Respect that center line and stay on your side of the road; cross that single center line to

pass another car only when you are sure that the roadway is clear far enough ahead for you to do so safely, but don't ever cross that double center line unless directed to do so by an officer.

Some economists have been predicting a depression was just around the corner for several years now. At least it won't hurt as long as it stays there.

"HELPING BUILD HAMLIN"

Live as the young folks do and you'll stay young, says a doctor. The only trouble will be to get the old folks to settle down that much.

Just because a few citizens go to the trouble of voting, our nation is fast developing a government of the minority for the minority.

The most famous duel in U. S. history was that between Alexander Hamilton and Aaron Burr.

**LOOKING AHEAD**  
By GEORGE S. BENSON  
President—Harding College  
Searcy, Arkansas

Millions of Americans are beginning to stir themselves from a long hibernation and squarely face the responsibilities of citizenship. This awakening from lethargy is one of the most encouraging signs I've observed since I returned home from Asia 14 years ago after an absence of 11 years. At this time we as a nation were drifting, on a strong current, away from the fundamental principles which have given us the highest living standard the world has ever known. And hardly anybody seemed to notice or care.

For years I've been conscious of this apathy as I traveled about the country addressing various groups and meeting people. In the past year or so there has been an awakening of significant proportions. It isn't sufficient to halt the leftward trend—but, to me, it is immensely encouraging. Since January 1, 1949, I've made 210 speeches in 36 states, tracing the good record of free enterprise and the dismal failure of Socialism wherever tried. My collective audience of \$1,220 per-

sions included industrial workers, teachers, business and professional people, housewives, students—a good cross-section of our population.

**A Welcome Question.**

The reaction of a considerable number of men and women fell into a pattern. Not all, but most of those I met face-to-face after my formal speeches told me they'd begun to realize the full import of some of the things happening in our nation today and were anxious to do something to help safeguard the American way of life. Invariably they asked, "What can I do?"

The same awakening attitude and the same question are being expressed all through the mail I receive from listeners to our radio program and from readers of this column and our monthly letter which goes to some 40,000 people around the country. When a person asks this question he is at least partly informed—he sees the threat to our freedom. And nine out of 10, I believe, really will do something if given specific directions, materials or tools to work with. I always welcome the question.

**Something To Do.**

Answers to "What can I do?" virtually unlimited in number. Here are five that come to my mind easily—all commanding positive action:

- 1.—Become well informed on history and politics and especially in economics. Henry Hazlitt has written an easily understood book for laymen—"Economics In One Easy Lesson." The Reader's Digest for February has a provocative book digest on politics—"The Road Ahead". These could be thought starters for anyone. Get reprints of the Digest's book condensation and distribute them.
- 2.—Speak out. Take five minutes and awaken some of your friends and associates—at your club, or Bible class, or labor union meeting or sewing circle, or P-T-A, or at noontime in the office or shop where you work.
- 3.—Get better acquainted with your local preachers and school teachers and public officials. What is their thinking? Have lunch with them. Swap viewpoints on economics and politics. Take them books to read; recommend constructive movies, radio programs, columns, editorials.
- 4.—Citizenship Demands. Get a good 16 m.m. film that tells the American story and show it the next time your group meets—any group. Scores of such movie shorts are available on loan without cost. (We're producing some ourselves at Hamlin.) Are your local schools taking advantage of this medium

**Camp Fire Girls Make Baskets as Project**

A group of Camp Fire Girls under the direction of Mrs. Ned Moore, Mrs. S. A. Teague and Mrs. Bert Fomby met at the hut Thursday evening and made May baskets filled with roses.

The girls accompanied by their sponsors visited the home of Mrs. Stella Beavers, Mrs. Pat Collins and Mrs. S. C. Ferguson, Sr. They sang songs and presented each shut-in with a May basket.

After the "sunshine" tour Mrs. J. B. Meason served refreshments at the hut to the following girls: Sarah Fomby, Betty Teague, Reanne Moore, Gynolyn Brown, Herlinda Mendoza, Ida Carter, Jean Kidd, Reatha Sanders, Kay Meason, Joy Fay Hames, a new member, Elaine Starr, and the sponsors.

Taking a cue from old-fashioned patchwork quilting, fashion designer Rose Marie Reid whipped up an up-to-the-minute, eye-catching cotton patchwork swim suit.

Mr. and Mrs. Bill Burnett, Dallas, and daughters, Patty Lynn and Carrie Louise, are visitors in the home of Mr. and Mrs. John F. Green, Jr. The Burnetts are former residents of Hamlin.

# OF INTEREST TO WOMEN

When it's party time, tempting cookies are the order of the day. Buttered squares make perfect party refreshments, served with piping hot coffee. They are fine to keep on hand in the cookie jar, too, for between-meal snacks or to put in school lunches. The success secret of these cookies lies in creaming thoroughly with margarine.

**1/4 cup margarine**      **1 cup sifted flour**  
**1/4 cup brown sugar**      **1 teaspoon baking powder**  
**1/4 teaspoon salt**      **1 teaspoon vanilla**  
**1 egg**      **1/4 cup pecan meats**

Cream together margarine, sugar, and salt. Blend in beaten egg. Add flour and baking powder sifted together. Then add nut meats and vanilla and spread the mixture in a lightly greased shallow pan (about 9-inch square.) Bake in a moderate oven (350 degrees F.) 25 to 30 minutes. While hot, cut into strips about an inch wide and three inches

## Leader Training Meeting Held For Home Demonstration Clubs In Agent's Office

Miss Jimmie Nell Harris, associate food specialists from College Station, gave a leader training meeting to the cereal foods demonstrators and leaders, April 17, in the Jones County Home Demonstration Agent's office at Anson.

A total of 31 women attended and represented 10 of the 12 clubs in the county. Hodges, Pleasant Valley and Blue Bonnet failed to have representatives at the meeting.

Miss Harris discussed the importance of good home baking. She said, "All breads are not good. Success in baking is not due to good luck or to a knack for baking. It is due to using tested recipes, accurate measurements, correct mixing methods, correct baking and care afterwards."

As she mixed the ingredients for Boston Steamed Bread, she discussed rules of good baking.

While the bread was steaming she had the women score some bread which she had steamed and sliced before the meeting. The group discussed ways of serving the bread and planned menus using it.

The women were very interested in the training and are planning to give the demonstrations to their clubs.

Following women will give the demonstrations to their clubs: Mrs. Roy Williams, Mrs. J. W. Osment, Tuxedo Club; Mrs. I. H. Rogers, Mrs. E. H. Lyckman, New Hope Club; Mrs. Clyde Worman, Mrs. J. C. Williams, Avoca Club; Mrs. Grady Smith, Mrs. Roy Brown, Friendship Club; Mrs. R. S. Spraberry, Mrs. Harve Car-
